

Team Statement

Discussion 9am Team #5

1. Info about each team member

- Jiayuan Wang
 - Strengths:
 - Compassionate and caring. (I'm quite sensitive myself so I often pay careful attention to how others around me are feeling)
 - I'm flexible and open to tasks.
 - One of my strengths is using creativity to come up with unique ideas.
 - Works well under pressure.
 - Organized and likes to feel prepared.
 - Helpful Info About Me:
 - I'm currently a 1st year computer science student and I'm planning to double major in informatics.
 - One thing that I would like the rest of the team to know about myself is that I'm a morning person. I'm usually up pretty early in the morning and tend to feel at my best earlier in the day. That also means I go to sleep pretty early so it might be hard to reach me after 11pm.
- Thi Thuy Trang Tran
 - Strengths:
 - Organized
 - Flexible and responsive
 - I don't put off work until last minute
 - Hard worker
 - Eager to learn new things
 - Helpful Info About Me:
 - I'm quite active on social media so if anything, contact me on discord and I'll be fast in response. I always start working on things early so don't worry about late submission. I always respect and listen to other people's opinions and this would be helpful in working within a team.
- Khoa Nguyen
 - Strengths:
 - Flexible
 - Hard-working
 - Responsive
 - Helpful Info About Me:

- I'm a fourth-year Computer Science major, and I'm graduating this quarter.
 - I love coding and learning new things related to the major. If you have some ideas and are looking for a partner, hit me up. I would love to team up with you guys.
- Nathan Van
 - Strengths:
 - Detail-oriented and organized.
 - Eager to help others and provide possible feedback.
 - Work well with others, open to different ideas.
 - Strive for completeness and correctness.
 - Helpful Info About Me:
 - I am a third-year Informatics major.
 - I stay up very late and up early in the morning so I can be reached most of the time. I am fast in responding to discord messages so you can reach out to me at any time.
- Daniel Lewis
 - Strengths:
 - 4th year CS major with an interest in software engineering
 - I work well in a team environment
 - My goal for this team is to learn as much as possible and achieve 'A' grades for our group
 - I look forward to making friends
 - Helpful Info About Me:
 - I am a 45 year old student returning to the university to obtain the degree I wasn't able to achieve in my youth. I have learned certain skills that have helped me succeed throughout the years. As far as teamwork is concerned, I would say being consistent in engaging the team often, and solving problems in a timely manner is paramount to group success. People usually find me to be easy-going and approachable.

2. Team ground rules

- Work together to divide work as evenly as possible.
- Address conflicts/problems calmly and in a timely manner.
- Discord will be our primary means of communication.
- Ask questions if you're stuck or unsure of anything, don't hesitate and delay.
- Be mindful of others' opinions and ideas, take notes and give constructive feedback.
- Be responsible for your commitments, good communication is key.
- Treat everyone equally with respect.
- Don't hesitate to share ideas.
- Strive together toward a common goal.

- If a team member wants to perform a massive formatting edit on a shared file in Google Docs, submit the proposed change as a suggestion.
 - As a team of 5, if there are any disagreements on how to proceed as a team, we will take a vote.
 - Prior to submission of any group work, all team members will sign off on their acceptance of the quality of the work.
3. Planned date, time, and location of team bonding activity
- April 14, 2022 at 7:00 PM, skribbl.io
4. Group Google Drive Folder
- [Informatics 121 Team Assignments Folder](#)
